John McKay records that 497,000 *lithographed* "1-20 Black Ribbon Cigarettes" were 'delivered' under the **3rd BABN Contract** ( 1878-1886 ). Apparently he has here grouped the 1/20th pound Type I and Type II black strips.

The collection *does not* contain a *control-numbered* copy of the perforated 1/20th pound "Windsor" Division strip on *unwatermarked* horizontal mesh wove paper - **WANTED!**

★**RC-4n** - 1/20th pound, "Windsor" Division, black, *without* control numbering, perforated 12, *lithographed* on *unwatermarked* horizontal mesh wove paper

**--- imperforate - 120 x 15 mm. - *without* control numbering - scanned at 100% scale ---**

The collection *does not* contain a *control-numbered* copy of the *imperforate* 1/20th pound "Windsor" Division strip on *horizontal* mesh *unwatermarked* wove paper. I can see no legitimate reason for the *control-numbered* existence of *imperforate* strips. Perhaps some had been control numbered, prior to the perforation process, and are simply unfinished remnants.
